SUPERINTENDENT'S REPORT

To the School Board and Citizens of Swanzev :

I have the honor to submit my sixth annual report.

TEACHERS: Numerous changes have occurred in the Swanzev teaching staff during the summer and fall. At the Cutler School, Miss Mary Morris, principal and teacher of the upper grades, resigned and Mrs. Margaret Nolin was transferred to fill this vacancy. The school Board elected Mrs. Irene Reynolds, a graduate of the State Teachers college at Patterson, New Jersey, as principal of the building and teacher of grades five and six.

Mrs. Anna Goodale resigned at the Wilcox School and Mrs. Ruby K. Ramsay, a graduate of the Fitchburg Teachers College, was chosen to teach the lower grades.

Both Miss Mary Coll and Miss Marie Kaeser did not return to the East Swanzev School. Miss Christine Sweeney and Miss Margaret Britton of Keene Teachers College took over their respective duties.

The School Board was unable to find a replacement to teach music in the Swanzev schools in place of Miss Evelyn Brinton who left in order to accept a more lucrative position at Claremont, New Hampshire.

During the late fall, Mrs. Nolin accepted a position in Keene. It was found necessary to extend the Christmas vacation for these upper grades approximately an additional two weeks as no other teachers were found to be interested in teaching such a combination of classes with such a large enrollment as exists in this room. At the present time, Mrs. William Stickels of Keene, an experienced teacher of junior high school classes, has been engaged as a substitute teacher for a portion of the spring term.

It is becoming more and more difficult to secure teacher replacements in all types of schools but this is especially true in those towns where schools have more than one grade to a room as in Swanzey. The latest statistics show that approximately 117,500 teachers changed positions during the period June, 1943, to October 1, 1943. Of this number, 79,900 left the teaching profession and the remainder went to positions in other school systems. Under these circumstances, Swanzey should do all in its power to retain its present staff of teachers.

TRANSPORTATION: It was found necessary to assign to the Cutler School all children who had formerly ridden on the Mathews Road route and had attended the Wilcox School. This arrangement was made necessary because of the death of Mr. Earl F. Smith, one of the Swanzey conveyors for many years. This arrangement is not entirely successful because it has resulted in the overcrowding of certain grades at the Cutler School.

A large amount of time during the past year has been spent in surveying transportation routes, making maps and tabulating data in connection with school buses in order to conform to the rules and regulations set up by the Office of Defense Transportation. Four conferences have been attended by the Superintendent in Concord, Keene, and Greenfield, Massachusetts, in order to obtain detailed instructions concerning general orders issued by this government agency. Every school bus in the nation is required to have a certificate of War Necessity fixing the maximum number of miles of operation and authorizing the necessary fuel, parts, tires and tubes. The most important problem was to eliminate unnecessary mileage and bus stops as defined by the Office of Defense Transportation.

A thorough reviewing of all the Swanzey routes was made by Mr. Andrew Soellner of the Boston office in August. Approval was given to all the bus routes in operation contingent on making the necessary reduction in mileage and stops. As a result of this conference, the number of bus stops was reduced to about 50 per cent and some children were required to walk nearly a mile to meet the buses at the end of the route.

As school buses represent over 50 per cent of the nation's passenger buses, it is necessary that each district should do its best to conserve them as replacements can be secured only in the most urgent cases. Swanzey, I believe, is doing its share in this phase of the conservation program.

ABSENTEEISM: Exactly twenty years ago in one of his annual reports, Superintendent Samuel S. Brooks urged the more regular attendance of children at school, stressing the fact that children should not be sent to school when they are really ill or when they have to walk a long distance during inclement weather. He further stated that they should never be kept out or permitted to stay out for any other reason. He observed that they cannot do the work of their grade and be absent from school a good part of the time and that their chance of promotion was decidedly lessened by losing two or three weeks of school during the year.

The per cent of attendance of the Swanzey schools for the year ending June, 1924, was 93.5 with 186 cases of tardinesses recorded. During that same year 27 pupils failed to be promoted out of an enrollment of 293.

It is necessary now, as it was then, to give the same warning to the parents and urge them to endeavor to keep their children in school.

The school year ending June, 1943, had only 338 half days of school, one of the shortest school years since 1920. The average per cent of attendance for all the schools was 93.5, with East Swanzey and Number Nine ranking the lowest with approximately 91 per cent attendance at each school. The statistical report shows that out of an enrollment of 331 pupils, the non-promotion list was 36.

It is hoped that parents will cooperate with the authorities in seeing that their children attend school every day that school is in session unless prevented from so doing because of sickness.

In conclusion, I wish to express my appreciation to the teachers and pupils, to the School Board, and to the parents and patrons of our schools for their cooperation.

Respectfully submitted,

CHARLES W. WALKER,

Superintendent of Schools.

HOME FOOD PRODUCTION

Patriotism, prudence, and protection of health combine to urge that in 1944 every family produce and preserve for home consumption as much of the family's yearly food supply as possible. Home food production will assure our own food supply, will release more foods for the armed forces and lend-lease, will help meet the national goals, and will relieve transportation, labor and equipment shortages.

To help families with their plans for food production and preservation at home, the University of New Hampshire Extension Service lists the following free bulletins for your use:

Hotbeds and Cold Frames	Ext. Circ. 214
The Home Vegetable Garden	Ext. Circ. 170
Vegetable Storage	Ext. Circ. 140
Tomatoes for Good Health	Ext. Circ. 220
Control of Insects and Diseases in the Home Garden	Ext. Circ. 253
Strawberry Culture	Ext. Circ. 211
Red Raspberry Culture	Ext. Circ. 103
Blackberries for New Hampshire	Ext. Circ. 104
Grape Growing in New Hampshire	Ext. Circ. 173
Improved Blueberries	Ext. Circ. 215
The Home Poultry Flock	Ext. Circ. 250
Home Canning Guide	Ext. Bull. 57
Appetizing Pickles and Relishes	Ext. Circ. 130
Canning of Fruits and Vegetables	Ext. Circ. 137
Canning of Meats	Ext. Circ. 175

List the titles of the bulletins which you would like on a penny post card and mail it to: Extension Service, Room 211, Thompson Hall, University of New Hampshire, Durham, New Hampshire.
